

# League Rules & Etiquette

## Be on Time

Games are scheduled every 50 minutes starting at 6:30. this does not include warm up time. Make sure that you make time to warm up before your match so you can finish your games in the allotted time. Your play affects the games that follow yours.

## Ball Control

Hand setting will be called at the appropriate level of the player. Please be mindful that not all players are upper level setters. If there is a question, find a league director to answer the question, then replay the point. NONE OF US WILL MAKE IT AS PROS, SO JUST HAVE FUN!

## Serving

All servers must rotate. If you are subbing in players, make sure to keep track of where that player serves. You cannot serve any quicker than every 4th serve. When receiving, hands must be together. There is no open hand receive in our leagues.

## Violations & Infractions

Pretty simple.  
Never touch the net. This will result in a side out.  
Never touch an opponent. This is interference and will result in a side out.  
Doubles and ball handling will be called at the division level.

## Have fun, Kick ass, IN THAT ORDER

Over all, we all have real jobs, real lives, real problems. come here to have fun. If you happen to win some money after all that fun, EVEN BETTER. But as always, put the emphasis on the fun and the kick ass will come.
